Project Title: Snoopy Website

I'd like to build this site as multiple pages with Typical site navigation probably across the top or listed at the left side. I think there is plenty of content and photography to build out individual pages.

- **Home Page/Introduction** – Introduce snoopy and briefly go over its origin from the comic strip Peanuts. Snoopy is an anthropomorphic beagle in the comic strip Peanuts by Charles M. Schulz debuted in October 4, 1950.
- **Origin/History of Peanut:** Snoopy is a character from the Sunday American comic strip, "Peanut," written and illustrated by Charles M. Schulz. The strip ran from 1950 to 2000, continuing in reruns afterwards. I want to go over the history of this comic strip while also covering where in this history Snoopy appears.
- **Other Characters:** I will introduce the other characters of Peanut and their relationship to Snoopy.
 - Charlie Brown
 - Lucy
 - Linus
 - Lila
 - Peppermint Patty
 - Sally Brown
 - Schroeder
 - Rerun van Pelt
 - Woodstock
 - Fifi
- **Personality/Traits:** I will describe Snoopy's personality.
- **Sibling:** Snoopy has 7 siblings but only 5 are mentioned throughout the comic strip. This includes Spike, Olaf, Andy, Marbles and Belle. The other two, Molly and Rover, are only brought up in the 1991 television special Snoopy's Reunion. Schulz ended up regretting introducing the siblings so I want to mention the history with Snoopy's siblings.
- **Snoopy's Legacy:** I want to reflect on Snoopy's impact and lasting legacy through the merchandise/stores/communities that still remain today.
- **Sources**
